

Safety First – Covid-19 Safety Plan for the Vancouver Lookout

Vancouver Lookout's Safety Plan is our commitment to the health and safety of our visitors and staff.

Safe: Adequate Physical Distancing

- Our 5000 sq. ft. observation deck allows for ample social distancing
- Floor markings indicate 2-m/6 ft. distances and direct traffic flow in one direction
- Dedicated elevators for ascending and descending
- Maximum group size 50 guests per visit
- Groups must book 48 hours in advance so we can ensure all visits are spaced one hour apart to allow for proper sanitizing

Clean: Heightened Hygiene and Sanitation

- All guest and staff areas including elevators are sanitized prior to each reservation with special attention paid to high touch surfaces
- Hand sanitizers placed throughout the Observation deck, inside and outside washrooms
- Onsite signage indicating proper mask wearing and handwashing

The Extras: Exceeding Provincial Guidelines

- Contactless payment options
- All staff wear masks in public accessible space and on tour
- Ongoing health and safety training for staff and protocols for staff illness reporting
